PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Science undergraduate with hands-on experience in full-stack development and machine learning. Passionate about building scalable, data-driven solutions and eager to apply strong technical and problem-solving skills to innovative technology projects.

EDUCATION

NSHM Knowledge Campus, Durgapur

Bachelor of Technology (B.Tech) – Computer Science and Engineering

2023 – 2027

Durgapur, West Bengal

TECHNICAL SKILLS

Languages: Python, Java, C, JavaScript

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, Flask, REST APIs, JWT

Databases: MongoDB, MySQL

AI/ML: Scikit-learn, Pandas, NumPy, Hugging Face Transformers, Streamlit

Tools & Platforms: Git, GitHub, VS Code, Firebase, Postman

EXPERIENCE

Edunet Foundation

AI and ML Intern

Jan 2026 – Feb 2026

Remote

- Built and trained ML models using Python, Pandas, NumPy, and Scikit-learn for real-world problem solving.
- Gained hands-on experience in data preprocessing, feature engineering, and model evaluation.
- Deployed ML applications using Streamlit.

PROJECTS

Nexa: Intelligent AI ChatBot

[GitHub](#) | [Live Demo](#)

Technologies: React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS, Gemini AI, ImageKit, Firebase

- Developed a full-stack AI chatbot platform powered by Gemini AI featuring real-time, context-aware conversations and persistent user chat history.
- Implemented AI image generation, image/document analysis, and multimedia support using Gemini Vision and ImageKit CDN.
- Built secure authentication with JWT, bcrypt, and Google OAuth (Firebase) for protected user access.
- Designed a responsive modern UI with voice input, markdown rendering, syntax highlighting, and a public community feed for sharing AI-generated content.

Crop Recommendation System

[GitHub](#) | [Live Demo](#)

Technologies: Python, Scikit-learn, Streamlit, Pandas, NumPy, Matplotlib, Seaborn

- Developed and deployed a Random Forest-based ML model to recommend optimal crops based on soil and environmental parameters (N, P, K, temperature, humidity, pH, rainfall).
- Built an interactive Streamlit web application to recommend the most suitable crop with confidence score.
- Implemented probability distribution visualization showing top 3 recommended crops.

CERTIFICATIONS

- **Applied Artificial Intelligence-Learn, Build and Create an AI Agent** — IBM (CSRBOX)
- **Prompt Engineering for Generative AI** — IBM (CSRBOX)
- **Software Engineering Job Simulation** — Electronic Arts (Forage)
